

FRONT-END DEVELOPER

# STEPHEN THOMAS

## PROFILE

I'm a Front-End Developer and Creative. I graduated from Juno Bootcamp in Toronto in 2020, and have since been working as a Front-End Developer at a web agency that handles multi-year accounts for large, complex eCommerce projects. I focus on creating dynamic and intuitive and accessible web experiences and commit to writing clean, reusable and semantic code.

## SKILLS

## EXPERIENCE

### JUNIOR FRONT-END WEB DEVELOPER

Plogg Media, Jan 2021-present

- Currently working in Vue/Nuxt/Vuex/Vuetify stack coding [synode.ai](https://synode.ai). This project also uses Webpack, Node, Git, HTML5, CSS3, & JavaScript ES2015
- I also do part-time duties as a Project Manager
- Workflow managed in Scrum/Agile/Asana
- Throughout 2021 I worked on the frontend of large, complex enterprise Wordpress sites, using PHP, Twig/Timber, ITCSS, BEM, SCSS & Less, and ACFs (Advanced Custom Fields)
- I migrated a large enterprise Wordpress site ([bushfurniture.com](https://bushfurniture.com)) to a brand-new design and modern, maintainable ITCSS/BEM CSS framework
- Training in Shopify & Liquid:
  - [st-wellby.myshopify.com](https://st-wellby.myshopify.com), PW: wellby
  - [steve-superhi-proj-1.myshopify.com](https://steve-superhi-proj-1.myshopify.com) PW: fitra
- I also coded [rely-dtc.com](https://rely-dtc.com) & the frontend of [plazalaval.com](https://plazalaval.com)

### FREELANCE WEB DEVELOPER

Astera Institute, June-August 2021

- I single-handedly coded [astera.org](https://astera.org), and also managed the entire project, from handling the contracts, subcontracting a designer, liaising between the designer and the client, and organizing daily stand-ups during crunch time, and setting up the server and custom blog. Wordpress, Cloudflare, REST API (Lever integration), PHP, Sass CSS, HTML, JS.

## COPYWRITER

Innovate USA, 2019-2020

- I wrote profiles of entrepreneurs for a series of B2B books. I personally interviewed each entrepreneur and turned their thoughts into an article.

## EDUCATION

### Juno College of Technology

- Web Development Immersive Bootcamp Certificate, Fall 2020

### University of Alabama

- Master of Fine Arts, Creative Writing, 2014

### University of Toronto

- BA, Cognitive Science, 2008

## FEATURED PROJECT

### DETECTIVE POKÉMON (Live | Code) – REST API | Sass | React

- A quiz game built in React that lets users select the best Pokemon to solve a crime. Coordinates data from the London police API with the Pokemon API for a seamless user experience. Group project.
